

Korean International Semiconductor Conference
on Manufacturing Technology 2022 (KISM 2022)
November 13-16, 2022

Paradise Hotel Busan (Haeundae Beach), Busan, Korea

Prof. Soong-Geun Je

(Chonnam National University, Korea)

Soong-Geun Je is an assistant professor at Department of Physics, Chonnam National University since 2019. He received Ph. D. from Seoul National University, Korea, in 2015. Prior to joining Chonnam National University, he was a postdoctoral at SPINTEC, France (2015-2017) and at Lawrence Berkeley National Laboratory, USA (2017-2019). His research area includes experimental study on magnetization dynamics induced by spin currents and magnetic fields, particularly on current-driven domain wall motions and the magnetization switching by spin-orbit torques. His current research interest is topological spin textures and their topological properties.
